IN YOUR EYES

DARK-CIRCLE AND PUFFINESS TREATMENT

1. R3P Eye Specialist by Dr. Brandt Skincare

Helps to restore and replenish moisture while diminishing the appearance of deep lines and dark circles. It stimulates collagen production and reduces the depth of wrinkles, thus diminishing the signs of aging.
www.sephora.com

2. The Eye Concentrate by La Mer

This concentrated reduces the appearance of dark circles and puffiness, lines and wrinkles, encouraging the eye area to look and feel healthy, supple and luminous. www.lamer.com

3. All About Eyes Rich by Clinique

Helps to diminish under eye circles, shadows, puffs and fine lines boosting natural collagen production. Even strengthens skin's moisture barrier against common irritants.
www.clinique.com

4. Re-Nutriv and Re-Creation for Eyes: Night and Day Defense by Estée Lauder

A synergistic day and night system of correction with two formulas rich in Re-Creation's deep sea waters, minerals and calcium technology for youthful-looking skin.
www.esteelauder.com

5. L'or de Vie, La crème des yeux by Christian Dior

Especially designed to reverse the process of aging on the delicate age-prone eye area using ten molecules extracted from the wines of Château d'Yquem. The cream acts overnight, allowing eyes to experience radiance, fewer shadows, less puffiness and less wrinkles.
www.dior.com

6. Neuropeptide Eye Area Contour by N.V. Perricone

This combination helps to combat the telltale signs of aging, fatigue, and stress. Incredibly moisturizing, it diminishes the dry, papery translucency of the thin skin around the eye.
www.sephora.com

Advanced Eye Area Therapy by N.V. Perricone M.D.

The formula helps to correct the blueness under the eye while recovers skin elasticity. The results are a healthier and brighter appearance overall specially when used together with Neuropeptide Eye Area Contour.

7. Rich anti-oxidant balancing cream for the delicate skin around the eyes by AESOP

Designed for the skin surrounding the eyes, the blend of botanical extracts is suited to all skin types. This product also possesses tone balancing properties, designed to counteract visible indications of fatigue.
In Portugal @ Fashion Clinic store

8. Hylexin™ by Bremenn Research Labs

By optimizing enzymatic activity makes the red-blue pigmentation of dark circles fade. Studies confirm that this product helps strengthen the capillary matrix to help stop the "leaking," so the delicate skin in the orbital eye area is protected against further damage.
